NEWS FOR IMMEDIATE RELEASE

***FIRST HEALTHCARE COMPLIANCE and NEW HAMPSHIRE
MEDICAL SOCIETY FORM AFFILIATION***

Wilmington, DE, and Concord, NH—May 12, 2015—First Healthcare Compliance (www.1sthcc.com), a national provider of a comprehensive compliance solution to help healthcare providers save time and money by efficiently implementing an effective compliance management program, jointly announces the official launch of an affiliation with New Hampshire Medical Society (www.nhms.org).

The First Healthcare Compliance Partners program provides partners or affiliates with an opportunity to refer members to First Healthcare Compliance, and for their members to receive a ‘members-only’ lifetime discount as a new subscriber. First Healthcare Compliance helps their members save time and money, mitigate risk and maintain focus on healthcare by providing a comprehensive compliance program management solution that addresses HIPAA/HITECH, OSHA, the False Claims Act, the Anti-Kickback Statute, Stark and more in a simple, efficient, and effective manner, all in *one* place.

"As First Healthcare Compliance continues to grow nationally, we are committed to developing relationships with qualified partners or affiliates. It is a winning proposition for organizations interested in offering an innovative new benefit to their members," said Julie Sheppard, Founder and President of First Healthcare Compliance. "We are thrilled that such a well-respected organization as New Hampshire Medical Society shares our commitment to providing the resources and tools for healthcare practitioners and professionals to better manage their compliance needs. We are confident that this new affiliation will help us better reach physicians and healthcare providers in New Hampshire." "Like us, New Hampshire Medical Society understands the pressing needs of this market for a comprehensive compliance program management solution," continues Julie Sheppard. "They recognize the incredibly limited resources available and the void that the First Healthcare Compliance solution and services fill."

###

About First Healthcare Compliance First Healthcare Compliance provides solutions, services and education to address the needs of the physicians in private practice, or those in hospital networks, health systems, skilled

nursing facilities and healthcare billing companies to implement and maintain a high quality compliance program in a simple, effective, and efficient manner. The new business model created by First Healthcare Compliance enables them to offer a turnkey, comprehensive, single-source compliance solution.

A privately-owned women business enterprise founded in 2012 in Wilmington, DE, by Julie Sheppard, First Healthcare Compliance was created from the rising concern Julie had in witnessing the increasing demands being placed on physicians and other healthcare providers in private practice and in hospital networks and health systems, to comply with the rules and regulations of the Affordable Care Act. As a nurse, an attorney, and a physician's spouse, Julie identified a widening gap between the expectations of government and the reality of compliance for healthcare professionals. She recognized the opportunity available to fill the void of practical compliance resources and options to solve these needs; this became the impetus for the formation of First Healthcare Compliance.
